Affconnect.com is a global affiliate marketing network connecting thousands of affiliates working across multiple industry verticals supplying brand name marketing options through a powerful advertising network platform

The Affconnect.com Marketing Network

Take advantage of the Affconnect.com global marketing network connecting marketing affiliates working across multiple industry verticals with brand name marketing options through a powerful marketing network platform.

Our rapidly growing network with thousands of affiliate marketing partners provides our client brands with a unique platform and content delivery network service tracking all referred customer activity and reporting on performance and commission earnings.

We take care of all technical integrations to your systems and offer our affiliates multiple commission options including revenue share and cost per acquisition structures to suit the commission models that our clients prefer.

Integration to our network is handled by our professional and experienced onboarding team and your brand can be pushed live across our network generating new long term revenues for your brands. Our affiliate management team launch your brand into the network and proactively work to drive affiliates to market your brand and deliver new business

Our platform tracks all ad content delivery and referred click activity to ensure full compliance and acceptable advertising standards are adhered to by our affiliate partners and is constantly monitored to safeguard our clients reputation and regulatory requirements throughout your network activity.

Integration to the Affconnect.com network is charged with only a one time setup fee, fixed monthly management fee together with the commission model and rate for your offering.

Network Integration

Integrating your brand and offering with the Affconnect.com network platform is simple and professionally managed by our onboarding support and technical teams. We offer direct link integration through your existing tracking and reporting solutions and full API integration options. All setup fees are free for all EGASS, ETRASS, ERASS and DIGITALMLM software clients.

Network Reach

The Affconnect.com network provides brands looking for instant traction through an established marketing network with the perfect solution to reach their desired audience through a network of thousands of affiliate marketing partners. Once integration to the network is completed, your brand and its marketing campaigns will become accessible to all affiliates or invitation only within our network and managed by our team of affiliate marketing managers.

Commission Models

The Affconnect.com gives you total control over the commission models and rates you want to offer our network of affiliates. We offer our affiliates multiple commission options including revenue share and cost per acquisition structures for your preference. Please note that Revenue Share commissions are tracked independently on an affiliate by affiliate account basis.

Dedicated Account Management

Affconnect.com provides you with a dedicated account manager to work alongside you to get your brand integrated to our platform, launched into our network and to provide ongoing day to day support. Our support team are available by telephone, email and live chat around the clock to support you.

Setup & Management Fees

Affconnect.com charges a one-time setup fee to integrate your brand and offering to the Affconnect.com marketing network together with a fixed monthly network management as detailed in the pricing section below.

Commission Fees

Commission fees are paid on all referred customer activity as per your requirements through revenue share or CPA commission model structures.
